[BLD26-00942](#)

- Remove and dispose of the existing roofing system down to the roof deck
- Inspect decking for structural integrity and replace any rotten decking for solid nailing surface at no additional cost to the homeowner
- Prepare substrate for installation of new roofing system
- Properly install Owens Corning Starter Strip Plus over drip metal to manufacturer spec
- Install Owens Corning Titanium® UDL30 Synthetic Underlayment across the entire roof surface using manufacturer approved fastening method - 1" plastic cap nails
- Install Ice & Water Barrier RhinoRoof G or Owens Corning WeatherLock with two rows on the eaves (6 feet) and one row in the valleys (3 feet)
- All waterproofing components installed in accordance with manufacturer specifications and local code requirements
- Install Owens Corning Duration FLEX Shingles in accordance with manufacturer specifications (Estate Grey)
- Install using 1-1/4" hot-dipped galvanized roofing nails (11 or 12 gauge) for all shingle fastening
- Install matching High Profile Hip and Ridge Shingles (Estate Grey)
- Plastic cap nails to be used for underlayment fastening only
- Install shingles using a 6-nail fastening pattern to meet enhanced wind resistance requirements and manufacturer warranty standards
- Remove and replace all required step flashing to ensure proper water diversion
- Install kick-out flashing at roof-to-wall transitions where applicable
- Replace chimney flashing as needed to ensure watertight performance
- Properly flash all roof penetrations including plumbing vents, bath vents, and mechanical terminations
- WUI-Compliant Ventilation System (IR1 Zone) Install non-combustible metal intake and exhaust vents. All ventilation openings to be protected with corrosion-resistant wire mesh (1/8" or 1/16") in compliance with WUI IR1 requirements
- Remove existing ventilation components
- Ventilation system to be installed in accordance with code and manufacturer standards
- Remove and replace all existing drip edge
- Install 2" oversized metal drip edge at all eaves
- Install matching high-profile hip and ridge cap shingles
- All exposed roof penetrations (plumbing vents, HVAC pipes, etc.) to be painted with high-heat roofing paint for a clean, finished appearance
- Complete full jobsite cleanup upon completion of work
- Utilize magnetic equipment to remove all nails and metal debris from surrounding areas
- Provide and install deck mounted VELUX FS D06 2004S 24"x48"
- Install (3) 24"x48" Fixed Velux Skylights to manufacturer Specification using VELUX EDL Flashing kit and mandatory adhesive IWS
- Cut interior drywall to size
- Install new matching 1/2 inch Drywall, tape seams, apply texture and paint match
